

Our Mission

NYFD Bravest Football Team, Collin Lampensberger (Angel) & Parents, and Founder Denis Murphy

Our mission is to improve the quality of life for children and their families who are battling pediatric brain tumors and to raise awareness about this insidious disease.

How do we do this? **FoJ** pairs up children and their families battling pediatric brain tumors with college and high school sports teams. The teams give these children love, support and friendship as they fight this devastating disease. We celebrate each day by creating lasting relationships between student athletes, the child, and their families. This greatly improves the quality of life for children with brain tumors, as well as those who support them.

Vision

The Friends of Jaclyn Foundation has a global vision to provide **every** child suffering from a brain tumor, and in the future, other life-threatening diseases, the opportunity to receive love and support as they struggle through their everyday challenges.

FoJ seeks to immediately impact the child's life in valuable and

UNC-Wilmington Women's Soccer Team with Baylee Adkins

constructive ways that will alter their outlook about their situation,

whereby giving them hope and courage to fight this insidious disease. By providing these children and their families with teams of dedicated student athletes and coaches who give the children love, support and friendship, improving their quality of life. In turn, the athletes gain a different perspective about life and compassion - the gift of caring for others.
